

# 3D/4D ULTRASOUND UPGRADE

10 Week Foetus

Foetal Face/Foot

Foetal Foot in Mouth

Foetal Profile

27 Week Foetal Face

MIA Victoria is pleased to announce the installation of new state-of-the-art 3D/4D Ultrasound machines at:

**Werribee Mercy Hospital**  
300 Princes Hwy, Werribee

**Hoppers Crossing Radiology**  
267 Heaths Road, Hoppers Crossing

## Advantages of 3D/4D Ultrasound:

- Anatomical views not possible with 2D scanning
- Clear real time images
- Increased access to imaging planes not available with 2D techniques

## MIA Victoria has extensive experience in ultrasound imaging including:

- Specialised O&G services
- State-of-the-art ultrasound technology
- Convenient patient parking

MIA Victoria is a member of the I-MED/MIA Network
