# PET/CT SERVICES AT FRANKSTON PRIVATE

## Our new powerful high resolution PET/CT scanner provides:

- **Diagnostic Confidence:**

Superb image quality improving diagnostic confidence.

Can detect changes in molecular activity which helps you: reveal primary tumours  
detect metastases and  
quantify uptake.

Ability to fuse images from PET/CT with MRI

- **Enhanced Patient Comfort:**

The wide tunnel design means that patients will have a more comfortable exam, including claustrophobic and large patients.

- **Medicare Licensed:**

MIA Victoria continues to provide an extensive PET service with 34 eligible item numbers.

We provide PET/CT for all the usual PET/CT indications and MRI scanning for appropriate cases such as CNS tumours, Head and Neck cancer, liver tumour evaluation, gynaecological malignancy, renal tumour and sarcoma.

- **Waiting Times are Short:**

All urgent cases will be accommodated.

No patient will be denied a study irrespective of Medicare eligibility.

Frankston is easily accessible and only 3 traffic lights from the CBD on Citylink/Eastlink.

Frankston Private, 24-28 Frankston Flinders Road, Frankston
