

PAEDIATRIC RADIOLOGY SERVICES AT WARRINGAL PRIVATE RADIOLOGY

In response to requests by many of our referrers, MIA Victoria is pleased to announce the introduction of Paediatric Radiology services at the Warringal Private Radiology.

The service will commence on Wednesday 16th August (afternoon), and will operate every Wednesday afternoon thereafter.

Services Provided

- Ultrasound (Hips, Renal, Abdominal, Cranial)
- Fluoroscopy (Barium studies, MCU)
- Plain x-ray (including Bone Age)
- State-of-the-art Multi Slice CT (64 slice)
- Paediatric Nuclear Medicine

(Bone and Renal Nuclear Medicine – reported by Dr Ken Lee)

The service will be run by Dr Murray Bartlett. Murray is an experienced and highly trained Paediatric Radiologist.

MIA Victoria welcome Murray to Warringal Private Radiology and trust that you will find the new service of great benefit to your patients.

Our highly trained staff are aware of the special needs of children and the environment required to minimise any apprehensions.

Introducing Dr Murray Bartlett

Dr Murray Bartlett is a Paediatric Radiologist, trained locally at Monash University graduating with Honours.

He entered the Paediatric Physician Training Scheme and spent five years in Paediatric Medicine at paediatric centres in both Melbourne and Perth.

Murray then entered radiology training in Perth and, on completion, progressed to Sydney's Westmead Children's Hospital for fellowship training. Finally, he moved to his home base of Melbourne to work in MRI at Cabrini and as a consultant at the Royal Children's Hospital.

Murray has written a number of publications and has presented work in the USA on several occasions.

He is skilled in all aspects of Paediatric Radiology and welcomes all referrals.
