

CAREERS WITH MIA VICTORIA

INFORMATION FOR NEW GRADUATES

MIA Victoria is the leading provider of diagnostic imaging services in Victoria, providing a comprehensive range of radiological services throughout a network of strategically located practices. The combined group operates over 65 locations throughout the northern, southern, eastern, western and bayside suburbs of Melbourne, and extends to include the Mornington Peninsula and Gippsland regions.

MIA Victoria offers:

- Variety of clinics from hospital based sites to large comprehensive stand alone clinics.
- Modalities include Multi slice CT, Ultrasound (general and vascular), DEXA, Stereotactic biopsy, OPG, MRI, Mammography and Breast screen, as well as General Radiography and DSA.
- On call and shift work an optional extra not compulsory.
- Quick progression to in house training including CT, Stereo, MRI, Mammography, Breast Screen and Ultrasound, leading to career advancement. All training provided by highly motivated staff.
- In house educational program, where CPD credits are given for attendance in all modalities including Ultrasound.
- Reimbursement for seminars and conference attendance.
- Excellent remuneration, secondary working conditions and a fully funded Christmas and mid year party.
- Equipment constantly being updated with CR and PACS at all MIA Victoria sites.
- Large Multi National Company can offer opportunities locally, nationally and internationally, maintaining all leave requirements.
- Commitment to training with Ultrasound and X-Ray tutors and a Mammography supervisor.
- Annual MIA Victoria educational conference for all modalities.
- MIA Victoria will endeavour to find suitable jobs, being mindful of where you live and your specific interests for all PCP's and interns who choose to stay with MIA Victoria whilst qualified.
